

KEEP OUR OCEAN PLASTIC-FREE

Plastics stay in the ocean for hundreds of years. They are consumed by and even entangle marine life causing harm.

DOs

Throw plastic in the bin.

DON'Ts

Toss plastic into rivers, drains or trenches - they all lead to the ocean.

Use single-use plastic bottles and straws.

Ignore plastic litter around you.

Microplastics enter the food chain via marine life causing further harm!

Put plastic litter in your bag if no bin is present!
