

SURINAME

- Completed sampling activities and has **collected and characterized a total of 693.69 kilograms of waste** at 2 sampling sites.
- Brought together **56 stakeholders** for the Year 1 Project Update Meeting held on June 12th.
- Published Suriname's **National Policy Brief on Marine Litter and Plastic Waste** on the PROMAR website ahead of the Q4 policy dialogue.
- Delivered educational sessions at four secondary schools, boosting awareness of plastic pollution among **239 students**.
- Delivered a **Social Media Content and Promotion training** to **17 participants** from **10 organisations** on 17-18 June.

TRINIDAD & TOBAGO

- Kicked off the PROMAR Project with an **Inception Meeting on April 23rd**.
- Brought together stakeholders for a **National Policy Dialogue** on Marine Litter Prevention and led hands-on Capacity Building Workshops on Circular Economy and Extended Producer Responsibility (EPR) from June 3-4, 2025.
- Trained enumerators to carry out the **Knowledge, Attitudes, and Practices (KAP) Survey on Marine Litter and General Waste**, incorporating a **Material Flow Analysis (MFA)** component.
- Carried out **three baseline shoreline samplings** at Foreshore, Port of Spain, in June.

GUYANA

- Hosted the **National Policy Dialogue** on Marine Litter Prevention and led Capacity Building Workshops on Circular Economy and Extended Producer Responsibility (EPR) from May 21-22.
- Led talks on launching a **Circular Economy Lab** at the University of Guyana (May 23).
- Showcased the PROMAR Project at the **Coastal Zone Canada 2025 Conference**.
- Mobilized volunteers for a second beach clean-up at Kingston Seawall on June 28, successfully removing **67.54 kg** of litter.
- Installed Riverbooms that trapped **31,260 kg** of litter in June.
- Carried out a Household **Material Flow Analysis (MFA) survey** and secured **417** completed responses.

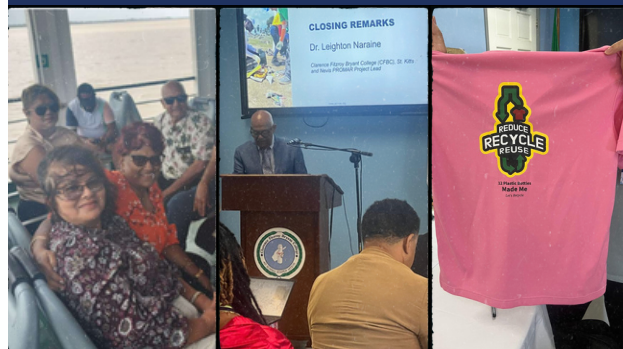

ST. KITTS AND NEVIS

- Published St. Kitts and Nevis' **National Policy Brief on Marine Litter and Plastic Waste Management** on the PROMAR website.
- Held a **National Policy Dialogue and Capacity Building Workshops** on Circular Economy and Extended Producer Responsibility (EPR), June 11-12.
- Collected **more than 450 responses** for the Knowledge Attitude Practices (KAP) survey which includes a Material Flow Analysis (MFA) component.
- Started **waste collection and characterization** at the demonstration sites.

BRITISH VIRGIN ISLANDS

- Kicked off their **first beach clean-up** at **Taddy Bay International Airport**, Virgin Gorda in April 2025.
- Held a **National Policy Dialogue and capacity-building workshops** on **marine litter, circular economy, and EPR** on May 29-30.
- Partnered with Beyond the Reef for Wreck Week 2025, leading multiple clean-ups and removing **1,118.25 lbs** of waste.
- Engaged **local schools to boost awareness** on marine litter.
- Completed a Knowledge Attitude Practice (KAP) Survey with **383 responses** collected.
- Developed a **Material Flow Analysis (MFA) survey for schools and businesses** which will be implemented soon.

NEXT STEPS

- Preparation of **Baseline Reports** consolidating all data from the initial sampling activities at the demonstration sites

- Execution of **Material Flow Analysis (MFA)** to map plastic use patterns and disposal pathways in each Phase II Country

- Output papers from the **National Policy Dialogue on Marine Litter Prevention & Capacity Building Workshops on Circular Economy and Extended Producer Responsibility (EPR)** being drafted for publication

- Crafting of **Pilot Sites Selection** Preliminary Document
